

SCHOOL INFRASTRUCTURE

Campus Overview

Spread over acres of Pollution – Free environment, Podar International School provides a cool and conducive environment for the growth of body, mind and soul. Study at Podar International School is an enriching experience for every child who studies here. At Podar International School, we develop our school infrastructure with an aim to maximize the potential of each student to learn, reduce distractions, enhance focus and remove any form of discomfort or difficulty. The vitality of airy, spacious class- rooms, vast play fields and open friendliness of work environment helps students to reach their fullest potential.

Classroom-

The spacious well – ventilated classrooms with natural light, provide a conducive environment for learning. We have specially designed furniture in each of our school classrooms that make sure the student is comfortable all throughout the school session.

Class room technology -

At Podar International School, our teaching methodology expands beyond the boundaries of traditional board and chalk teaching to include technology and modern techniques wherever possible. To help students understand and visually relate to complex concepts, every classroom has been provided with projectors & visualizes. With the help of such technology we make sure our students have a firm grasp on the subject matter and are able to think in three-dimensional space.

Computer Lab -

It is said that the 21st Century belongs to the field of Information Technology and every day brings about a revolution in the field of computer science and technology. Our Computer Laboratory, houses the latest computer of one machine per child to enable very child to get hands-on experience which will enhance their learning process. The curriculum is designed to suit the needs of the present generation and is aimed at teaching them the applications of various soft-wares like Paintbrush, MS Word, Excel, and Power Point, FrontPage, C++, and Java and also teach them to use the Internet which is the need of the hour.

Art Room-

The Art Room with its dedicated workshop space, enables children to express their creativity and imagination through various art forms using different mediums. These include sketching, drawing, craft, paper art, clay moulding, fabric, canvas and earthen pots etc.

Dance room -

We have the spacious and well-equipped dance room which facilitates aesthetic and artistic nurturing of the young learners. Students get an opportunity to hone their artistic expression under the guidance of experts. Children get a chance to explore and perform various dance forms including classical, western, and contemporary and folk.

Science Laboratory -

It is rightly said that: What I learn - I forget..... What I see - I remember And what I do - I Understand.....! Our aim is to promote learning thorough understanding of concepts, we have well equipped and well stocked science lab. The lab is equipped with apparatus for experiments and demonstration, audio – visual equipments, specimens, models, picture charts etc. This helps us to promote an attitude of enquiry, develop scientific temper and a deeper understanding of the subject. The lab is provided with the required safety measures.

Medical room -

The school accords utmost importance to children’s physical well- being, health and safety. The school medical room is equipped with all the necessary facilities to address the immediate health needs of the students while they are in the school. A qualified and experienced nurse is available on campus to manage and assess any health issues that may arise during school hours. The medical centre in the school maintains high standards of hygiene and a well-documented system of every student’s health records. The medical staff arranges for routine medical treatment as well as health promotion activities such as an annual check-up, and dental and ophthalmologic camps.

School library-

Reading is encouraged in students from a very young age, as an independent way to learn and gain knowledge. For reading pleasure there is a wide range of fiction for all age groups and reading abilities right from age 3 to 18. Library is also used for literature promotion and language support. The library have a vast collection of over 1400 books that include fiction, non- fiction, biographies, encyclopedias, storybooks, picture books, dictionaries, reference books in various academic subjects, teacher resources, etc. The library subscribes over 30 journals, periodicals, magazines and newspapers as well as digital resources spanning a wide spectrum of topics and disciplines. The library also holds special events from time to time which include review of the book activity, author of the school, library week, book fair, etc.

Guidance and counseling cell-

The school has a dedicated counseling cell to provide personal and group counseling to children. It serves as a space for students to discuss their academic, social, emotional and behavioral concern related adolescence and peer group dynamics with utmost confidentiality. The children are referred to the school counselor by the teachers and preliminary assessment of the situation is made. The help is offered in terms of counseling and guiding students and parents. The cell also suggests suitable interventional remedies to handle the difficulties. The school counselor along with the hub counselor conducts regular sessions on life skills for students with the objective of enabling them to deal effectively with situation and challenges of everyday life. These include developing social skills, emotional skills and thinking skills as they are important building blocks for shaping a strong personality to cope with future challenges.
