

Curriculum in Podar International School, Jalna

MISSION

To develop and equip the children of India for the challenges of the 21st century.

VISION

To be the best and be recognised as raising the traditional standards of educational possibilities and outcomes for students, parents and society.

Podar International School, Jalna, is a team of multi-disciplinary educators who are extremely creative, energetic and passionate about learning. The school provides its students with a high-quality academic curriculum and co-curricular activities to improve their performance.

Podar International School, Jalna, follows the **CBSE curriculum from Std. I to X**. The curriculum is designed and developed to focus on the **Learning Outcomes and Skills**. The teachers follow learner-centric lesson plans based on different pedagogies

which incorporate effective strategies like experiential learning, problem solving, and real life connect in order to have integrated and interactive lessons. The lessons also use different digital tools, activities, stories, poems, role plays, interdisciplinary approaches and other stimuli for set induction, instruction methodology and closure that lead to fruitful and critical thinking among students to enhance their technological skills and 21st century skills.

The school provides **additional resources** and **coaching** to cater to all type of learners- (VAK) students, enrichment (remediation) and enhancement (high achievement). The counsellors provide a wide range of support for the **SEN students**.

One of the highlights of the curriculum for the younger students is '**Symphonics**' the **phonics** programme for Std. I-III, which is based on the international method of teaching to read, write and spell. It helps students to recognize the sounds of the alphabet and pronounce them correctly, and to develop strong communication skills. Another highlight is '**Power Math**' the **mathematics** programme for Std. I-III, which is based on the CPA (Concrete, Pictorial and Abstract) Model. Students perform activities with the manipulatives to learn mathematics easily.

The school conducts effective **Assessments** from Std. I to X. There are no formal examinations for **Std. I and II**, and students are assessed on a wide range of **activities and worksheets** to enhance their skills. The students of **Std. III to V** have **skill-based assessment** in the form of formative and summative examinations. The summative examinations accurately test their understanding, and the internal/ formative assessments are based on their creativity and interest. The students of **Std. VI to VIII** follow the **CBSE guidelines** for formative and summative examinations. Robust **academic and emotional guidance** is given to the students of **Std. IX and X**, along with skill-based assessment and evaluation. The Art Integrated Project is a part of formative assessment and is followed from **Std. I to X**.

The educators of Podar International School, Jalna, regularly **self-evaluate** themselves. By sharing their strengths, analysing their setbacks and prioritizing areas of self-improvement, the staff is able to **plan and implement solutions and trainings** in order to turn flaws into fortes. This is the testimony of their commitment and passion towards **learning and growth**.
