International School Award: Activity 3 “The Earth is heating up”**

“**The Earth is Heating up**” was a collaborative project for grade-4 with partner countries China, USA, UK, Japan.

The aim of the project was to study about global warming and the climate change and to study the cause and effects along with preventive measures of global warming used in India, China, USA, UK, and Japan. The ISA activity was divided into five sub activities as follows:

Research work done by students:- The students collected information about global warming through e magazines, newspapers, and internet and discuss its implications and preventive measures with the teachers in a brainstorming session.

Survey and Presentation:

Activity 1: The students will prepare questions for global warming. The survey will be taken by the students with the help of their neighbours and family members.

The result of the survey will be compared with the proposed partner country.

Activity-2:- Students shared the information collected in the school assembly and guided them for global warming rally on 2nd week of October. Parents were made aware of the same through the circulars.

Activity-3:- Students painted the slogans in class on global warming and they also used this slogans for the rally.

Activity-4:- Students spread the awareness in the school assembly with other children on global warming. They also shared the effects and causes of global warming caused on the environment and people.

Activity-5:- Students made a rally with the help of posters and slogans made by them in class. They performed the rally on crowded locations to spread the awareness about global warming among the people.

Activity-6:- Students took the survey with the help of their neighbours and family members along with the questionnaire prepared by them.

Conclusion:- Students enjoyed the rally part most. They were able to find the important causes and effects of global warming. They also enjoyed painting the slogans and decorating them with different decorative materials with their own ideas in class. While making slogans they came across different types of papers and colours.
