## **PRINCIPAL'S WORD**

Dear Podar International School Community,

It is with immense pleasure that I extend my heartfelt appreciation to our students and the dedicated editorial team for the splendid 7th edition of our newsletter, 'Campus Roots.' Your unwavering commitment to consistently produce a newsletter filled with creative content, exclusively crafted by our talented students, is truly commendable.

A special acknowledgment is reserved for Prakanya Prabhakar of Grade 7 from our institution, whose remarkable feat of writing and publishing books online is a source of inspiration to us all. Prakanya's initiative underscores the vast potential within our student body.

I encourage more students to explore their creative prowess by engaging in activities such as writing poems, stories, and even books. Our school aims to break down inhibitions that may hinder students from venturing into the world of literature. 'Campus Roots' serves as a valuable tool in this endeavor, providing a platform for self-expression and creativity.

To parents, I earnestly request your support. Take a moment to appreciate the creative work of your children and encourage them to devote time to such pursuits. This not only fosters their creative spirit but also offers a healthy alternative to excessive use of electronic gadgets and social media.

Let's continue nurturing a culture of creativity and literary exploration within our school community.

Warm regards,

[GIRISH KUMAR]

Podar International School, Mangalore

# Kannada Rajyotsava

Podar International School Mangalore celebrated KANNADA RAJYOTSAVA on 1 November 2023 by organizing KANNADA BHAASHE YAATHRE (Procession) from Kottara Chowki to the school. Chief Guest Mr. Kiran Kumar, Mangalore Corporator Bangra, Kuloor addressed the gathering and flagged off the procession. Students enthusiastically participated in large numbers. Cultural programs which included dances and songs highlighted the diverse culture and art forms of the state.

## CHILDREN'S DAY

Podar International School Mangalore, celebrated Children's Day on 9 November 2023. The day began with students being welcomed by teachers. The importance of the day was shared. Teachers stole the show with a variety of dances, songs and games. Students enjoyed the amazing performances. The day ended with an inter-house tug-of-war competition and a little gift as a token of love from the school on Children's day.

# SCHOOL APPRAISALS BY STUDENTS, TEACHERS AND PARENTS

1. "What attracted you to teach at this school?"

Ans: My daughter being a student in Sr KG when I joined Podar made me choose this school. However, I have learned a lot since then, especially about technology.

2. "How would you describe the school's overall mission and values?"

Ans: Our school successfully focuses on academics and extracurricular activities, allowing students to showcase their talents.

3. "What makes our school unique or stand out from others?"

Ans: Our student-friendly environment encourages open interaction between students and teachers. Students take up responsibilities with motivation from the Principal and teachers.

4. "What resources or support systems are in place for students with specific learning needs?"

Ans: We offer remedial classes for students who require extra assistance with understanding academic concepts.

5. "What initiatives or programs promote student well-being and mental health?"

Ans: Our school fosters a student-friendly environment where students can share concerns with teachers or counsellors. Motivational sessions help boost their self-confidence and goal-setting abilities.

-Prathibha .K  
Teaching Staff

1. "What do you enjoy most about attending this school?"

Ans: The special bond between teachers and students is my favourite thing about the school.

2. "Can you tell us about any memorable experiences or events at the school? What extracurricular activities or clubs are you involved in, and why did you choose them?"

Ans: I was pleasantly surprised by the student involvement in school activities. I'm proud to be a member of the dance club because I've always loved dancing and I have a talented teacher.

4. "What resources or support systems does the school provide to help you succeed academically?"

Ans: Podar's teachers are phenomenal, offering question banks, slip tests, and extra study materials like presentations and videos, facilitating effective learning.

5. "How does the school encourage creativity and independent thinking?"

Ans: Podar provides platforms for creativity and independent thinking. During my time as School Editor, I had freedom and contributed to the school magazine.

6. "How does the school prepare you for your future goals?"

Ans: The school conducts career planning sessions, vocational education, and promotes the development of academic skills, values, and general knowledge.

-Shambhavi Kartha  
X

1. How would you describe your overall satisfaction with your child's school?

Ans: I'm extremely satisfied with my child's school. It not only offers a well-rounded education with a strong focus on core subjects like Maths, Social, and science but also co-curricular activities.

2. What do you think sets this school apart from others in terms of its educational approach or values?

Ans: This school stands out due to its practical approach, emphasizing understanding and application of concepts rather than rote memorization. The teachers are cordial and encourage students to ask questions.

3. What is your perception of the school's communication with parents? Do you feel well-informed about your child's progress and school activities?

Ans: The school maintains excellent communication, providing regular updates on my child's progress and keeping us informed about school activities and events. They also actively seek feedback from parents through google forms during events.

4. Have you noticed any positive changes or improvements in your child since they started attending this school?

Ans: Yes, She has become more proactive and actively participates in school events. Her understanding of subjects has improved, leading to better grades.

5. How does the school handle challenges or conflicts that arise among students? Are you satisfied with their approach to discipline and student behaviour?

Ans: The school takes conflicts seriously and addresses them efficiently. No corporal punishment is allowed, and a student counsellor is available for behavioural issues. I'm satisfied with their approach to discipline and student behaviour.

-Parent of Shambhavi Kartha

# METHODS FOR EFFECTIVE STUDYING

- **Keep study space distraction free** : If you have phones, give it to your parents so you don't get distracted throughout your study session. If you use devices for studying, then there are apps that block other social media apps. For example:- Forest app.
- **Focus on tasks, not schedules** : Don't assign particular timings for studying a subject. For example, don't study 1 hour science, 1 hour maths; but instead study a particular subtopic that day.
- **Skimming through chapters**: Before you start studying, you should skim through the chapters, take a note of the diagrams, graphs, etc. and try to recall if you remember anything from the subtopics taught in class. It is alright if you don't, because you will be studying that chapter soon, but it is good to know the contents and what you will learn before actually starting.
- **Teach**: Explain topics to your brain as if you are teaching it. Teach your brain out loud. Or teach a random chair. This way, you understand topics better.
- Spaced repetition: What you are studying once, you are bound to forget it, unless you have super memory power, (which is quite rare). Hence what you study needs to be repeated at least a few times, depending on how difficult the topic is.
- **Active Recall** : This is an amazing method to study, especially for exams. In this method when you study a topic, you create questions related to the part you read. Later once you are done studying that topic, you write down the answers to those questions separately (Not just orally saying the answer, it is not as effective as writing). In this way you practice on how to answer the questions in exams.
- **Practice** : After studying, you should solve different questions to recall everything you have learnt. This helps you to search and obtain information from different corners of your brain, thus training your brain for exams and to recall.
- **Understand concepts, don't by heart** : Understanding what you study is very very very important. When you understand the concepts, you will know it for lifelong.
- **Concepts maps**: Drawing mind maps and concept maps can make you understand the connection between various topics. Diagram based studying is also very helpful, especially for "visual" learners.
- **Ask questions** : If you don't understand something, ask your teacher! Don't ever be scared to ask questions. Teachers are here to help us understand concepts, clear our doubts and they will be more than happy to help you. If you are too scared to ask during class, meet the teacher alone later and ask. So the next time you have a doubt, remember to ask your subject teacher.
- **Studying ≠ Exams** : You study to learn. Exams are to test how much you remember, but when you study, you should be studying to learn, not for exams. Learning is more important. This attitude can change the entire way you look at studying.
- **Consistency** : The most important tip that is often neglected is consistency. You need to study what has been taught in class every single day. Never postpone it to the next day, because you will end up never doing it. When you postpone it repeatedly and end up doing it at the last minute, right before the exam, it is called "procrastination", which is really problematic as you go for higher studies.

## STUDENT'S ARTICULATE

### FUN FACTS

1. The tongue of a blue whale weighs as much as an elephant.
2. Cows have best friends and can become stressed when they are separated.
3. Octopuses have three hearts - two pump blood to the gills, and one pumps it to the rest of the body.
4. A single ant can carry objects 50 times its own body weight.
5. Elephants are the only animals that can't jump.
6. The male seahorse carries and gives birth to the babies.
7. Bananas are berries, but strawberries aren't.
8. A group of flamingos is called a "flamboyance."

-Anvith.P  
Grade 5

### FUN FACTS

1. The first computer programmer was a woman named Ada Lovelace, who wrote the world's first algorithm for Charles Babbage's Analytical Engine in the 1840s.
2. Honey never spoils. Archaeologists have found pots of honey in ancient Egyptian tombs that are over 3,000 years old and still perfectly edible.
3. The world's largest living structure is the Great Barrier Reef in Australia, stretching over 2,300 kilometers and visible from space.
4. The shortest war in history lasted only 38 to 45 minutes. It occurred between Britain and Zanzibar in 1896 when Zanzibar surrendered after a British ultimatum.
5. The probability of shuffling a deck of cards in the exact order it has ever been shuffled before is virtually impossible. The number of possible card arrangements is so astronomically large that it is unlikely to have ever repeated in history.
6. The average person produces enough saliva in their lifetime to fill two swimming pools.
7. The world's fastest ant is the Saharan silver ant, which can travel up to one meter per second, equivalent to about 108 times its body length.
8. The largest volcano in the solar system is Olympus Mons on Mars, which stands at a towering height of 25 kilometers (16 miles) and has a diameter of 624 kilometers (374 miles).
9. The longest recorded flight of a chicken is 13 seconds.
10. There is a species of jellyfish called Turritopsis dohrnii, also known as the "immortal jellyfish," which is capable of reverting back to its juvenile form after reaching adulthood, effectively avoiding death and living indefinitely.

## FROM CHAOS TO COMEDY: A HILARIOUS MORNING JOURNEY

"I woke up with a start and realized I was late for work. As I stumbled out of bed, I tripped on my own feet and crashed into the dresser, knocking over a lamp that shattered into a million pieces. "Great start to the day," I muttered to myself.

I rushed into the bathroom, trying to brush my teeth and put on pants at the same time. As I squeezed toothpaste onto my toothbrush, I accidentally squeezed too hard, and a glob of toothpaste flew right into my eye. I stood there, one eye closed, toothbrush hanging out of my mouth, and trying to rinse my eye with water from the sink. I must have looked like a deranged pirate.

Finally ready to leave the house, I grabbed my car keys and ran towards the front door. But as luck would have it, my keys slipped from my grasp and landed in a bowl of cereal I had left on the floor. I stared at my soggy keys, contemplating if I could still start my car with a spoon instead. Desperate to catch my bus, I sprinted out of the house and down the street. Just as I reached the bus stop, the bus pulled away, leaving me standing there panting like a marathon runner who took a wrong turn. I cursed my luck and decided to walk to work.

Halfway through my walk, it started raining cats and dogs. I didn't have an umbrella, so I took shelter under a tree, hoping the rain would stop soon. But instead of stopping, the rain intensified, and it started hailing golf balls. I found myself dodging hailstones while simultaneously trying to keep my pants from falling down (I forgot to tie the drawstring).

Finally arriving at work, I looked like a drowned rat. My boss took one look at me and burst out laughing. "What happened to you?" he asked between fits of giggles. "Did you get caught in a hurricane?" I sighed and explained my series of misadventures, which only made my boss laugh even harder. He called the whole office into his office and shared my tale of woe. Soon, everyone was in stitches, and I couldn't help but laugh along with them.

Despite the ridiculous start to my day, I realized that sometimes the funniest moments come from the most chaotic situations. And even though I was drenched, bruised, and toothpaste-stained, I couldn't help but feel grateful for the laughter and camaraderie that surrounded me. So, with a smile on my face and a soggy pocket full of cereal, I embraced the rest of the day, knowing that no matter what happened, I had a hilarious story to tell. And maybe, just maybe, tomorrow would be a little less eventful."

-Prakanya

## A HOUSE ON FIRE

I had never seen a house on fire before, so, one evening when I heard fire engines with loud alarm bells rushing past my house. I quickly ran out and, a few streets away, joined a large crowd of people. We could see the fire only from a distance because the police would not allow any one near the building on fire.

What a terrible scene I saw that day! Huge flames of fire were coming out of each floor, and black and thick smoke spread all around. Four fire engines were engaged and the firemen in their uniform were playing the hose on various parts of the building. Then the tall ladders of the fire engine were stretched upwards. Some firemen climbed up with hoses in their hands. The continuous flooding brought the fire under control but the building was completely destroyed.

## LOVELY FRIENDSHIP

In a lovely village lived a young girl named Anita known for her silliness. Her mother tried her best to engage her to make friends but to no avail.

One day, the family paid a visit to the nearby park. Anita half-heartedly engaged in the activities, mostly observing others.

After some time, she suddenly felt a surge of loneliness and wished that someone would invite her to play. Sensing her forlorn look, her mother said "Anita, it's your fault no one has bothered to ask you to play and you know it. Don't sulk. Anita frowned and did not reply.

Soon, a friendly girl approached her with concern and requested "You look lonely. Don't you want to play with me? Anita felt touched by her kindness and agreed.

Their newfound friendship flourished and they had a lovely time. When they bid farewell and came home, Anita apologised to her mother for ignoring her advice and understood the importance of friendship.

## मेहनत की कामयाबी

एक समय की बात है, एक छोटे से गांव में एक गरीब लड़का रहता था। वह बहुत ही समझदार और मेहनती था। उसके पास पढ़ाई के लिए कोई सुविधा नहीं थी, फिर भी उसने खुद को पढ़ाई में लगा दिया। उसका सपना था कि वह एक दिन अपने गांव से बाहर निकलकर दुनिया को देखेगा और एक अच्छी ज़िंदगी जीएगा।

एक दिन, उसके गांव में एक विद्यालय के अधिकारी आए। वह एक छात्रावास की स्थापना करने के लिए आये थे और उन्होंने नये छात्रों की तलाश में नोटिस जारी कि। गरीब लड़के ने यह सुनकर अपना नाम दर्ज करवाया और एक प्रवेश परीक्षा देने को तैयार हुआ।

परीक्षा के दिन आया और गरीब लड़का ने अपने सपनों की कठिनाइयों के बावजूद बहुत मेहनत की। परीक्षा के बाद, जब परिणाम घोषित हुआ, तो उस लड़के को अच्छे अंक मिले और विद्यालय के छात्रावास में आवंटित किया गया।

यह देखकर गरीब लड़का बहुत खुश हुआ। उसने अपने गांव को छोड़कर छात्रावास में रहना शुरू किया। वहां पर उसने नई दोस्ती की, नये ज्ञान प्राप्त किया और नए अनुभवों को जीना सीखा।

धीरे-धीरे, गरीब लड़का पढ़ाई में महारत हासिल करने लगा। उसने एक अच्छी नौकरी पाई और उसकी आर्थिक स्थिति सुधार गई। वह अपने गांव को गरीबी से उबारने के लिए भी संघर्ष करने लगा। उसने गांव के बच्चों के लिए निःशुल्क शिक्षा की व्यवस्था की और सामाजिक कार्यों में भी सक्रियता दिखाई।

शोध-अध्ययन में उसकी मदद से गांव में सौर ऊर्जा और जल संयंत्र स्थापित किए गए। यह गांव के लोगों के लिए सस्ती और प्राकृतिक ऊर्जा की उपलब्धता सुनिश्चित करने में मदद करता है।

गरीब लड़के की मेहनत, समझदारी और समर्पण के बाद, उसके गांव में एक नया चेहरा नजर आया। उसकी सफलता की कहानी उसके गांव के लोगों को प्रेरित करती रही और वहां के बच्चे उसे अपना आदर्श मानने लगे।

इस कहानी का संदेश है कि मेहनत, समय और समर्पण के साथ कोई भी लक्ष्य हासिल किया जा सकता है। यदि हम अपने सपनों के पीछे दृढ़ता से खड़े हों और संघर्ष करें, तो हम सफलता की ऊंचाइयों को छू सकते हैं।
