

THE HARVEST

PLANTING THE SEEDS OF YOUR DREAM

EDITORIAL DESK

Podar International CIE provides an excellent educational environment with the innovative technique of imparting the education with the help of immense support of the teachers as well as the massive strength of improvising the same by indulging the skill of the students. The path of extracting the best output from the teachers and the students is not only concentrated dealing with the texts but also observed as the bright skilled work in other respective areas as well that concerns with several activities in the school like celebration of different festivals enthusiastically, being extrovert to share the views associated with the qualitative writing in aspects like articles, using the painting brush to give an artistic touch to create an impact of glamour. The inculcation of such work is brought into light through the source of our school magazine where the dignified work of the teachers and students are the limelight.

The thrust of our magazine – as should be the endeavour of all competent persons – is a collection of stories, poems, drawings and some facts. Here is where we break from the crowd in order to offer a stimulating and useful reading experience. When the idea of the magazine came first there was a lot of enthusiasm among all. In this technological world this idea was very well received. Going through all the articles for the magazine was a pleasurable experience for us. It was a proud moment for us when we saw a storehouse of talent in our students.

The experience of the hidden talents paved the path of smooth journey to a consequent path of reading, writing along with other activities creating a sense of responsibility to visualise the teacher-student involvement in doing the work.

GREETINGS FROM THE DIRECTOR

I am glad to note that the 1st issue of **“The Harvest”** is about to release on November, 2014. It is highly commendable to have been able to bring out this publication with the focus of achieving academic excellence in the school. Hearty congratulations for this!

I am aware of all the efforts that are being put in by every student and staff member to develop the academic standard of the school and reach to excellent.

We acknowledge and appreciate the dedication and perseverance with which students, teachers and staff of our school take up and complete various initiatives and projects, especially a publication like this.

With good wishes and regards to all.

Director

Dr. (Mrs) Vandana Lulla.

GREETINGS FROM THE PRINCIPAL

Greetings from Podar International School, CIE Kalyan.

It gives me immense pleasure to have the privilege of extending my message to the people, parents, teachers, children and all the community for the 1st issue of **The Harvest** a bi-annual E-magazine exclusively for CIE Kalyan students.

The intension behind for this e-version is to conserve the use of paper, i.e to save trees for our next generation and also to reach out to all well wishers, to the extent possible without missing anyone.

This magazine showcases not only the literary works of PODAR community but also gives you a glimpse of the life in the school. Every page of this magazine represents our community which contributes tremendously to the culture and the educational value of PIS CIE KALYAN and stand tall everywhere.

I like to congratulate all my students who constantly submit, participate, engage and encourage us to take the next step. We have been inspired by our former Principal Mr. C.M. Thakur on his message (Pg 5 of School Diary 2014-15 : this is what makes us different from other schools in the vicinity. Our teachers don't say "hand it in", they say "publish it".)

Also congratulate the hardship put by my dear teachers for making all tasks successful with passion & dedication. Editorial Team deserves a loud round of applause.

Big thanks to my Director, Dr (Mrs) Vandana Lulla for constant motivating us for good deed as well as key note.

We expect your valued critical input towards the magazine.

Good wishes and regards,

Mr. Sanjay Nandi

Principal

Name

I wrote my name in the sky but,

The clouds rubbed it off.

I wrote my name in the wall but,

The rain rubbed it off.

I wrote my name in my heart but,

The blood rubbed it off.

I wrote my name in a card

And gave it to my mom

Because I know now, they are in safe hands.

Natasha panda (Grade 7)

My School

My School is Podar, On Earth it is a star

Finally someone heard my screams,

Podar will take to my dreams.

Heaven is Podar,

In my future it will take me far,

Podar has given me a lot,

And many things it has taught

Podar is always right,

It will make my life bright

My school is very kind,

It will never leave me behind.

It has only good and easy rules,

It's not like other schools

Podar will always fly high,

Right in the sky.

Yashika Ramchandani (Grade 5)

Mathematics

East or West

Mathematics is the best

Think that everyone should love it.

School or college,

Mathematics is knowledge.

Multiplication or division

Mathematics is revision

4 + 8 Mathematics is great

Ice or Ice Mathematics is nice

I love mathematics,

I love mathematics

I think that everyone should love it.
