

Podar International Nashik brings home laurels from E2S Principals' meet

Two more feathers are added to the cap of PIS, Nashik. Annually a Principals' meet is held called 'Energy 2 Synergy'. For the last academic session 2014-15 the school won accolade by bagging a trophy called 'Engaged Learners Trophy' for the various Event activities executed in the right spirit. The trustee Mr. Gaurav Podar felicitated the school Principal Mr. Ramesh Chandra Panda for the same.

Also a novel initiative taken by the Principal Mr. Ramesh Chandra Panda was teaming a committee for the girl's welfare in school. This committee meets the girls from grade 5 and above on a monthly basis and discusses girl child related matters. Principal Mr. Ramesh Chandra Panda at the E2S gave a presentation on the same and all the other principals voted in favour of it and hence this 'Girls Welfare Committee' has become a policy throughout all Podar group of schools.

Workshop by Motivational Guru Mr. B.K Gupta

On 4th of June 2015, a workshop for teachers was conducted. The resource person for this workshop was Mr. Braj Kumar Gupta. He is the founder of Giant step. He enlightened the teachers on professionalism and ethics needed in the teaching profession.

The workshop was day long and a very enriching experience for all who attended it. Organising the workshop was the initiative of Principal Sir and all in all it was very fruitful.

FIRE DRILL AT PIS NASIK

Podar international school Nasik, conducted a fire evacuation drill on 3rd July 2015 in which all the teachers and students from standard 1 to standard X participated zealously. Mr. Sunil Sable conducted fire extinguishing demonstration showing all fire extinguishers and explaining how to use them through various videos and charts. He also informed the students and the staff members of the school about the various types of fire extinguishers, their capacity, and usage as well. A fire extinguisher use-demo was also performed on the basketball court. In addition to it, a fire evacuation drill was performed successfully in which all of the school students teachers and staff members participated. It took only 7 minutes to evacuate all the students, admin and jumbo kids staff and all the teachers safely on the school ground and the whole drill indeed became a huge success.

The Girls' Welfare Committee of Podar

Maintaining personal hygiene is necessary for many reasons; personal, social, health, psychological or simply as a way of life. Keeping a good standard of hygiene helps to prevent the development and spread of infections and illnesses.

Girls', especially in their growing age need to take special care about their health and hygiene which would help them and others to stay fit. So the same was told by our teachers in the first session of the girls welfare committee which was held on 3rd July, 2015. The girls from standard fifth to standard tenth were assembled together and were given tips about keeping the school washrooms hygienic. Many issues and problems faced by the girls' were discussed and even quick solutions were given by the teachers. The most important point discussed was that if we consider school as our second home then why don't we give a helping hand in keeping it clean?

It was a very helpful and interesting conversation between the girls' and the teachers. Everybody enjoyed it and gained knowledge and importance of personal hygiene. We are very thankful to our teachers who care a lot about us. Such sessions will be held regularly with new updated topics because we know GIRLS ARE PRECIOUS.....!!

VAN MAHOTSAV CELEBRATIONS AT PIS NASIK

“Lead the scene to keep it green”..... Students and staff members of Podar international school Nasik celebrated the Van Mahotsav on the 7th of July with immense vigour. Students brought saplings from home and planted them in the school compound along with the teachers, principal sir and the other staff members. By planting a tree, the podarites are surely doing their bit to preserve the planet at such a time when industrialization, pollution and deforestation are on the rise. The students, through this activity have indeed made our planet a bit greener and a bit cleaner.

कुंभ मेला

कुंभ यानि घडा। कुंभ मेला हर चार साल में एक बार आता है। यह इसलिए मनाया जाता है क्योंकि जष भूर्वों ओर अबूर्वों के बीच समुद्र मंथन हुआ था तष समुद्र के जल से अनेक पदार्थ निकले थे। उनमें से एक था अमृत जो कि चार जगहों पर जाकर गिरा : इलाहबाद नासिक उज्जैन और हरिद्वार। नासिक में इस साल कुंभ मेला आयोजित किया है जो कि बारह वर्षों के बाद हुआ है। यह साधुओं के लिए बहुत बड़ा पर्य है और सब इस पर्य में गोदावरी में नहाने जाते है। कुल मिला के यह उत्साह से भरपूर और निष्ठा से परिपूर्ण पर्य है।

हमारा भारत देश के ग्रामोद्योग के कारण विश्व में अपनी नई पहचान बना रहा है। बढ़ती महंगाई एवं बेरोजगारी के कारण दिर्नर्षदिन गरीबों के रोजगार के मुद्दे को हम दरकिनारा नहीं कर सकते। ग्रामोद्योग को बढ़ावा देने के लिए हमारे प्रधानमंत्री ने 'बिकल इंडिया' योजना को प्रारंभ किया जिसके तहत लोगों को रोजगार देने के लिए अनेक साधन स्थापित किए जाएंगे। इसमें बड़े उद्योगपतियों ने निवेश किया है और जिसके अंतर्गत हम विश्वस्तरीय में अपना सम्मान बढ़ाएंगे। इसमें निम्न आर्थिक स्तर के लोगों में आत्मविश्वास बढ़ेगा साथ ही देश की अर्थव्यवस्था को चार चोंद लग जाएंगे।

माझा आवडता ऋतू...

पावसाळा हा माझा आवडता ऋतू आहे। वर्षाऋतू म्हणजे पावसा
ळा। मला सर्ष ऋतूमध्ये पावसाळा हा ऋतू खूप आवडतो।
मला आवडणारा हा ऋतू जीवन देतो आणि सर्ष चराचरात चैतन्य
निर्माण करतो। धरती भुजलाम भुफलाम बनते। पावसात
खेडूक उसाव उसाव असे ओरडतात। पाऊस पडल्याने सर्ष

पावसाळा आला की आम्ही भोलानाथला शोधतो व त्याच्याकडून
शाळेची सुट्टी पडेल का विचारून घेतो। पण भोलानाथ फक्त मान
हलवतो। पावसाळा आला की एकाएकी ऊन पडते पारा सुटतो
आणि मग अचानक पावसाचे मोठेमोठे थेंबे पडू लागतात। आम्ही
दर पावसाळी सुट्टीत धषधषा खघायला जातो। उंचावरून पड

खूप आवडतो। पावसाळ्यातील सुखद आठवणींवरच आपण
तापदायक उन्हाळा सहन करतो आणि पावसाळा आपल्याला
हिरवाळ्याच्या थंडीची लज्जत देत असतो। म्हणूनच म्हणतो की
पावसाळा हाच 'ऋतुराज' आहे।

PEACE IN EDUCATION

Every day when we read the newspaper we are confronted with the sad news of violence, crime, and war. There is no doubt about the increase in our material progress and technology but this is not sufficient as we have not succeeded in bringing peace. According to Aurobindo “education offers the tool where one can live for the Divine, for the country, for oneself and for others and this must be the ideal of every school.”

There are two areas in which we can work towards education for peace. First is the education children get from parents and second is the education they receive from school. Peace in education is a process of acquiring the values, the knowledge, and developing behavior to live in harmony with oneself and with others. School is a place which can train students as ambassadors of peace. We must generate good and kind hearted pupils. We should train the students to introspect themselves, so that they can check their attitude towards others, and examine themselves carefully.

Value education is important in today’s life. It gives calmness and presence of mind when one loses control over one’s mind through hatred, selfishness, jealousy, anger and conflicts. So we should train the students how to resolve conflicts peacefully, introspect themselves, and develop ethical values through education.

We should all put our hands together, And give peace a chance forever.

Social Networking Impact on Youth

Children are growing up surrounded by mobile devices and interactive social networking which has made the social media a vital aspect of their life Whether this change is for the better or for the worse depends on how you look at it. This generation cannot imagine life without internet and various devices that connect us to it.

The effects of social networking are twofold. One of the most negative effect of social media networking is losing face-to-face contact with people. Teens are sitting around with gadgets in their hands all day long, tapping messages onto screens instead of communicating with real people. Children are not playing outdoor games which leads to obesity.

However, shifting the locus of social connection to the gadget has its positive side too. It educates, answers to question is at your fingertips, you can also connect with teachers, coaches and experts. It breaks down physical, geographical and cultural barriers. It also makes possible to keep touch with your friends.

Why Do We Dream?

My heart was full of anticipated pleasure and thrill of a novel. Experience of my departure. It was my first journey by air.

The plane started with a thunderous roar. Taking few rounds over the runway it climbed up. Things began to look smaller and smaller. Houses looked like tiny toys. Moving buses and vehicles looked like crawling insects. Soon the plane was high up in the air. I was very curious to see what I comes next but in a moment I found myself on the bed, my eyes open. It was a dream! “Dreams are the touchstones of our character.”

We all see dreams according to our character. As we deal with the multitude of information and memories from the daytime, our sleeping minds create images, impressions and narratives to manage and all of the activities going inside our heads as we slumber. No one really knows the reason for dreams, but these appear to be an important part of the sleep.

Tanvi Bharadwaj X Aryabhata

Your Best Friend And Your Worst Enemy

The mind is its own worst enemy as well as its own best friend. Mind is restless and jumps from one thing to another. It is fragmented, distracted and scattered on various objects.

The greatest impediment to concentration is restlessness and tossing of the mind. To remove tossing and other obstacles to one-pointedness, adamantly fix the mind on one object alone. It will want to create hundreds of alternate thought forms. But if not disciplined no progress can be made. It is necessary to introspect and watch the mind carefully. Bubbling thoughts must be silenced and emotions calmed; the purpose of concentration is the stilling of mental waves.

The more concentrated the mind is, the more power is brought to bear on one point. The purpose of life is to fix the mind on the Absolute. Concentration opens the inner chambers of love and, as it leads to meditation, is the sole key to the realm of Eternity.

Student life

Students life is full of fun
work and play.
their day begins with a prayer
And, ends with play.

They go to school with a heavy bag on their back,
And water bottles in their hand.
They sit in the class and toil all day,
And learn about millipedes that coil all day.

In school they make many friends,
And learn many trends.
They even learn values
of love and life.

They study all day
And are bright like the sunray
They can even swim
Like the fish on sea-bay.

Studies develop brainpower,
Sports develop willpower.
They can do both
Without any pain!

They use pens,
They use papers.
They can draw many things
And make many colorful rings.

But when march month comes,
They study all day
They work for appreciation
And sacrifice lot of recreation.

East or west
Students life is the best,
they can start their day with a prayer
And end with lots of play!

BEING Your Self

“Be yourself because an original is worth more than a copy”

The toughest thing to do nowadays is the thing to be considered to be simple by many-being you. Nowadays we all are trying to copy someone else-whom we idolise and respect. It can be anyone-from your teachers to popular friends to our favourite movie stars. We want to be more appealing and popular among others, a process in which we lose our own identity.

Self-rejection can make us feel quite worthless. When we believe all the negative things people say about us, we really feel that we are nobody. Then we try to be like someone else. We feel ashamed of our relation and everything to us. But believing what other people say is not a very smart choice neither is caring about what they say.

To be unique, you just have to be yourself. Acceptance brings happiness. Accepting ones faults and improving wherever possible leads to perfection. So, do what makes you happy and be yourself.

Proud to be me

The school embarks upon various themes during an academic session. The current theme going on is “PROUD TO BE ME”. Here’s bringing forth the highlights of the current theme.

● Jump Start Event – 17th June

To begin with the theme, ‘Proud to Be Me’ with an air of excitement, the Jump Start Event was conducted. Students participated at various PRIDE STATIONS.

● Express Yourself Activity – 22nd June to 25th June

During the theme ‘Proud to Be Me’, grade wise activities were conducted from 22nd June to 25th June 2015. Class I VII participated and it was welcome for children.

● Special Day Assembly – ‘I Make A Difference’ – 29th June

Common people around the world have made a great difference in this world. At Podar, students were made aware about these personalities, their life and their turning points.

● Expert Talk – Know yourself better; a talk with Counselor on 4th July

An expert talk was conducted for students of grade IX. They could interact with the School Counselor Mrs. Swati Mahajan and clarify their doubts related to self acceptance. This helped them to realize that problems are temporary.
